Your free game-shelf starter

Here's the quiet thing about a growing shelf: it out-runs your memory. The fix is small — a row per game. This free starter is a single tab: log the title and type, note the player count, mark whether you've played it, and rate it out of ten.

How to use it

- 1 Open Board-Game-TTRPG-Tracker-Starter.xlsx in Excel, Google Sheets, or LibreOffice.
- 2 Add a row per game; pick the type from the dropdown and mark it played or not.
- 3 Rate the ones you've played out of ten — the little summary up top keeps a running count.

READY FOR THE WHOLE SHELF?

This starter is one tab. The full Board Game & TTRPG Collection Tracker adds a live Dashboard that counts your plays-per-game, cost-per-play, win rate, and your shelf of shame; a Play Log for every game night; Campaigns and Characters tabs for your tabletop RPGs; three PDF guides; and a one-click Google Sheets copy — one owned file for Excel, Google Sheets, and LibreOffice.
