Your free Book Tracker starter

Here is the quiet thing about being a reader: you forget. The fix is small — a row per book. This free starter is a single tab: log the title and author, pick the genre, format, and status from the dropdowns, and rate the book out of ten while it's still loud in your head.

How to use it

- 1 Open Book-Tracker-Starter.xlsx in Excel, Google Sheets, or LibreOffice.
- 2 Add a row per book; pick genre, format, and status from the dropdowns.
- 3 Rate the ones you've finished out of ten — the little summary up top keeps a running count.

READY FOR THE WHOLE SHELF?

This starter is one tab. The full Book Tracker adds a live Dashboard that counts your reading year, a five-part rating (Overall, Story, Characters, World, Style), a Quotes tab, a Critic Ratings tab, a Reading Journal with weekly and monthly goals, three PDF guides, and a one-click Google Sheets copy — one owned file for Excel, Google Sheets, and LibreOffice.
