# Your free Concert Log starter

Here's the quiet truth about live music: the nights blur. The fix is small — a row per show. This free starter is a single tab: log the date, the artist, and the venue, pick the type from the dropdown, and rate the night out of ten while it's still loud in your head.

## How to use it

- 1 Open Concert-Live-Show-Log-Starter.xlsx in Excel, Google Sheets, or LibreOffice.
- 2 Add a row per show; pick the type from the dropdown and rate the night out of ten.
- 3 The little summary up top keeps a running count of the shows you've logged.

### READY FOR THE WHOLE YEAR?

This starter is one tab. The full Concert & Live-Show Log adds a live Dashboard that counts your year, a five-part rating (Performance, Setlist, Sound & Venue, Atmosphere, Value), a Setlists tab, a Wishlist, a Spending Log with a budget, three PDF guides, and a one-click Google Sheets copy — one owned file for Excel, Google Sheets, and LibreOffice.
