AN ARDENT WORKSHOP PRODUCT

Halloween Planner — the free starter

A budget and a live countdown to Halloween, in one free tab.

Free · no signup

PLAN IT ONCE. USE IT EVERY YEAR.

ardentworkshop.com

The free starter

This is the free, single-tab version of the Halloween Decoration Planner. It has the two things that stop the mid-October scramble: a budget that totals your spending for you, and a live countdown to Halloween. Open it in Excel, Google Sheets, or LibreOffice — nothing is locked.

How to use it

- 1 Set your Budget in the orange cell at the top.
- 2 List each decoration on its own row: the zone, what it costs, when it's due, and its status.
- 3 Fill Actual Cost as you buy — your Spent and Remaining update themselves.
- 4 The Days to Halloween countdown and each row's Days Left recalculate every time you open the file.

WANT THE WHOLE THING?

The full Halloween Decoration Planner adds a permanent decoration inventory (so you never buy a second skeleton), a shopping list, a week-by-week timeline, a live dashboard, a setup playbook with safety, printable checklists, and a one-click Google Sheets copy — one owned workbook you reuse every year. [Get it at ardentworkshop.com](https://ardentworkshop.com) >

A planning tool, not safety certification, and not electrical, fire-safety, or building-code advice. Example prices are illustrative. Free to use; please don't resell or redistribute. © Ardent Workshop.
