Your session will run about [Session Length] . No need to know how to pose; we will guide you.

2. What to Wear

Choose outfits you feel good in and can move in. A few guidelines that tend to photograph well:

- Pick colors that work together without matching exactly. Soft, solid tones and a mix of textures look timeless.
- Avoid large logos, busy patterns and neon colors, which can pull attention from faces.
- Wear layers or bring a second option if you are unsure. A jacket, scarf or cardigan can change a look quickly.
