

ARDENT WORKSHOP

AN ARDENT WORKSHOP PRODUCT

Free Places-I've-Been Starter

Log a place per row, flag it Visited or Bucket List — free from Ardent Workshop.

[Start here](#)

Your free places-I've-been starter

How many countries have you actually been to? Most of us can't say — the trips blur together. The fix is small: a row per place. This free starter is a single tab — log the place and country, note the year, pick a type, and flag it Visited or Bucket List.

How to use it

- 1 Open Travel-Tracker-Starter.xlsx in Excel, Google Sheets, or LibreOffice.
- 2 Add a row per place; pick the type from the dropdown and flag it Visited or Bucket List.
- 3 The little summary up top keeps a running count of what you've logged, visited, and still dream of.

READY FOR THE WHOLE MAP?

This starter is one tab, and you type the places yourself. The full Travel Bucket-List & Countries-Visited Tracker comes pre-loaded with all 195 countries — already sorted by continent and region, so you just set a status — plus a live Dashboard that counts your countries visited of 195, your percentage of the world, your continent coverage, and a year-in-travel recap; a Trips & Memories log; a Bucket List tab; three PDF guides; and a one-click Google Sheets copy. [Get the full Travel Bucket-List & Countries-Visited Tracker >](#)

Free starter from Ardent Workshop. The example places are a fictional, illustrative sample. A personal travel log, not travel, safety, or professional advice. Free to use; please don't resell or redistribute.
